SOLID - Clean architectures - TDD

ABOUT ME

With a background in Geospatial Engineering, I have a strong sense of organization, and know how to collaborate with other professionals. I'm a goal oriented person who pursues growth and works hard to achieve his objectives.

I'm passionate about technology and exploring the world of development. I enjoy creating new web products, and I know that learning is a never-ending road of discovery, challenge and inspiration. I'm currently expanding my knowledge on software architecture, design patterns and better practices.

SOFT SKILLS

- Interpersonal skills and effective communication
- Team leader
- Problem-solving oriented
- Problem-solving under pressure
- Decision-making initiative
- Discipline and excellent time management
- Logical and technical criteria
